Herbs

The herb collection at The Natural Garden, Inc. is one of the most diverse that you will find locally. Some will be used cosmetically, medicinally, for drying, and all will be beautiful and fragrant in your garden. These plants are great in containers, windowboxes, kitchen gardens or mixed into a border with other plants.

Trees & Shrubs

Trees and shrubs are often used to form the structure of a home landscape. Many of them will provide showy flowers and excellent foliage characteristics throughout the seasons. Our trees and shrubs are grown at nurseries in our climate to help insure hardiness. Be sure to stop in at different times throughout the year to see the new varieties we have brought in fresh and blooming.

Buddleia
